Art Unit: 1624

DETAILED ACTION

Claims 1-6, 36-40, 50-53 and 55-63 are pending in the application.

This action is in response to applicants' amendment filed July 9, 2007. Claims 4-6 have been amended.

Response to Amendment

Applicant's amendments filed July 9, 2007 have been fully considered with the following effect:

- 1. The applicants' amendments are sufficient to overcome the 35 U.S.C. § 112, second paragraph rejections labeled paragraph 2a), b), d), e), g), h), j), k) and l) of the last office action, which are hereby **withdrawn**. However, with regards to the 35 U.S.C. § 112, second paragraph rejection labeled paragraph 2c), f) and i) of the last office action, the applicant's amendments and remarks have been fully considered but they are not persuasive.
 - c) The applicants' stated that as recited in claim 1, R⁴ may be an alkyl group and that pages 9-10 of the application define the term "alkyl" which includes "linear, branched and cyclic alkyl groups". However, the definition of alkyl in the specification also includes a carbon count of 1 to 6 of which cylcohexylmethyl has 7 carbon atoms.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter, which applicant regards as the invention, for reasons of record and stated above.

Art Unit: 1624

f) The applicants' stated that claim 32 further defines the recited composition by a physical characteristic (amount of active agent), however, this is not so.

There is no indication what the dosing amount of the active agent is in the composition.

Claims 4-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter, which applicant regards as the invention, for reasons of record and stated above.

i) The applicants' stated that as recited in claim 1, R⁴ may be an alkyl group and that pages 9-10 of the application define the term "alkyl" which includes "linear, branched and cyclic alkyl groups". However, the definition of alkyl in the specification also includes a carbon count of 1 to 6 of which cylcohexylmethyl has 7 carbon atoms

Claim 62 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter, which applicant regards as the invention, for reasons of record and stated above

2. With regards to the provisional obviousness-type double patenting rejection as being unpatentable over claims 1-11 of copending Application No. 10/570,628 of the last office action, the applicants requested that this rejection be held in abeyance at this time.

Claims 1-6, 36-40, 51 and 55-63 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over

Art Unit: 1624

claims 1-11 of copending Application No. 10/570,628, for reasons of record and stated above.

3. With regards to the provisional obviousness-type double patenting rejection as being unpatentable over claims 30, 70, 71, 73 and 74 of copending Application No. 11/659,798 of the last office action, the applicants requested that this rejection be held in abeyance at this time.

Claims 1-6, 36-40, 50-53 and 55-63 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 30, 70, 71, 73 and 74 of copending Application No. 11/659,798, for reasons of record and stated above.

4. With regards to the provisional obviousness-type double patenting rejection as being unpatentable over claims 1-6, 16-19, 21-32, 35 and 36 of copending Application No. 10/486,715 of the last office action, the applicants requested that this rejection be held in abeyance at this time.

Claims 1-6 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-6, 16-19, 21-32, 35 and 36 of copending Application No. 10/486,715, for reasons of record and stated above.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brenda L. Coleman whose telephone number is 571-272-0665. The examiner can normally be reached on 9:30-6:00.

Application/Control Number: 10/541,460

Art Unit: 1624

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James O. Wilson can be reached on 571-272-0661. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
